WORK EXPERIENCE

YoungMinds Technology Solutions Pvt Ltd

Vijayawada, India

Full-Stack Developer — RestoSoft (biz.restosoftindia.in)

FEB 2025 – Present

- Built an **offline-first Windows POS system** with **Electron, React/TypeScript, Node.js/Express, and SQLite**, supporting full billing and KOT operations with zero internet dependency.
- Designed a **distributed LAN architecture** using a local server terminal and message broker to synchronize cashier and waiter POS terminals in real time over local IP.
- Built an enterprise **bi-directional cloud sync engine** with automatic upload/download, retry-on-failure logic, and conflict-free reconciliation between local SQLite and cloud databases.
- Integrated **silent thermal and network auto bill printing**; optimized relational database queries, setting up CLI tools and dashboards for server health, database latency, and logs.
- Delivered **4 role-based web applications** (Admin, Cashier, Waiter, Menu) with RESTful APIs, rate limiting, and **AWS S3** uploads in an Agile, Git-based workflow.
- Integrated an AI chatbot assistant using the **Claude AI API** for customer queries and leveraged AI-assisted code reviews to accelerate pull request lifecycles.
